PROGRAMME OUTCOME / PROGRAMME SPECIFIC OUTCOME

The Bachelor of Commerce (B.Com.) course is designed to provide competencies in commerce discipline as also impart requisite skills in problem solving, leadership, communications, decision making in organizations with appropriate subjects covering areas of economics, accounting, business management, communication, banking, taxation, marketing, costing, business administration, and company law.

Our college is affiliated to Savitribai Phule Pune University which follows the Choice Based Credit System (CBCS) which is a proven, flexible mode of learning in higher education which facilitates a student to have guided freedom in selecting his/her own choices of courses in the curriculum for completing a degree program. This is coupled with a focus on internship and Industrial Training to enable the students to become eligible and fully equipped for employment in industries, higher studies, or entrepreneurship.

The course structure will equip the students to accept the challenges of globalization and constant change and will enable them to be well placed in business, academics, and administration in the country as well as abroad.

Course Outcomes:

112 - Financial Accounting - I:

- Learners will be able to prepare financial statements in accordance with appropriate accounting standards.
- The learner shall be able to comprehend and analyse departmental accounts and consignment accounts.
- Learners shall possess the knowledge of interpreting the business implications of financial statement information.

113 - Business Economics - I:

- The knowledge gained in the course will make students better-informed citizens and allow them to follow the debates over various economic events and policies reported in the news media.
- This course will prepare students to be successful in advanced level studies in economics
- Students will be able to understand introductory microeconomics theory, solve basic microeconomics problems, and use these techniques to think about several policy questions relevant to the operation of the real economy.
- It provides a solid foundation for economic analysis and thinking that can last throughout their education and subsequent professional careers.
